

# DIVERSITY KEEPS THE REPUBLIC STRONG

My association, organisation, community, enterprise and I are opposed to all forms of discrimination: racial, ethnic, physical, philosophical and religious.

## We believe that :

Different cultures, sporting activities, the arts, in addition to stirring emotions and being sources of pleasure, bring hearts and minds closer and contribute to the development of peace in the world.

The republican values promoted within our association, enterprise or community are enriching and provide greater knowledge and understanding of our country's cultural diversity and allow us to live together in harmony.

## We declare that :

Any doctrine promoting racial superiority is scientifically false, morally reprehensible, socially unjust and dangerous.

Racism is an assault on human dignity and integrity and uses differences as a pretext to justify discrimination and exclusion.

Discrimination against fellow human beings for whatsoever reason is offensive and must be condemned as a violation of fundamental human rights and freedoms.

The wealth of a society is based on its diversity and the participation of all of its members in its democratic, social, economic and cultural life.

Signed by \_\_\_\_\_

## For these reasons I undertake to :

Promote education that favours diversity and opposes racism as well as all forms of discrimination that erode human dignity.

Promote republican universalism, tolerance, respect and secularism as the basis for living together.

Do everything within my power to ensure that diversity and solidarity are central planks of the organisation and deliberations of my association, enterprise or community and, especially, of all human resources functions, notably in terms of recruitment and shaping career paths.

Take part in all activities, including providing support for the Semaines d'éducation pour la diversité (diversity education weeks) organised by the LIGUE de l'enseignement to prevent and combat discrimination based on the colour of one's skin, religion, ethnic origin, political affiliation, language, socio-economic level, level of education, gender, sexual orientation, disabilities or on any difference whatsoever.

Use the «La Diversité est une force» (diversity keeps us strong) logo in my communication.

And draw on the foregoing to promote: knowledge (to counter ignorance), tolerance (to counter fanaticism), and solidarity and generosity (to counter isolation).

I agree to have my name or that of my association, my community or my enterprise added to the support committee list.

In \_\_\_\_\_, the \_\_\_\_\_
